About This Content

In the deepest of evil lairs, the infamous villain Skreeletor can be found trying to turn his dreams of universal conquest into reality. Having found hints of a powerful artifact known only as 'the Golden Weedling', he will do everything in his power to locate and claim this galaxy-conquering tool as his own. The only obstacle in his path is a small tribe of He-Mon'grahs from planet Skrultor Prime trying to obtain the very same artifact.

This DLC contains a custom skin for Skree in Awesomenauts. You need to have Skree available as a playable character in order to access the skin in-game. Owning this skin will also unlock the special portrait for use in-game. This skin contains a fully customized voice set!

great skin

didnt really notice the voice that much, seems to similar to the old lines

dont get me wrong, love the skin, really love the new totem, buuut....

it lacks that little thing that shows off,

most opponents wont even notice it...

. MYAAAAH!

(just so 10V10). HE-MAN... NNNYEEEEAAH!!. Really good skin, first Skree skin and it proves he has a lot of potential for others. All we need now is a He-man skin..... does Party boy McPain count?

edit wow, I kinda predicted Nibb's skin because she got a skin based of He-man!
